

As readers and authors we will:

be reading a variety of texts including those linked to our topic. We will be writing our own life drama fiction text and produce a discussion piece.

We will look at a variety of grammar features including those linked to our writing genre.

Spring 2 Learning in Year 4

As mathematicians we will:

be looking at statistics and money. We will also continue to practise our written methods of calculation and mental strategies. We will also be focussing on our times tables and well as problem solving and reasoning skills.

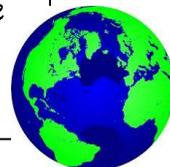

As linguists we will:

be continuing to build on new vocabulary we learn and how to use new phrases in different situations.

As historians and geographers we will:

be looking at the key physical features of Australia and the way the land is inhabited. We will also look at its location in the world and the time zone it lies in. We will learn about people who live in Australia and how they survive in the harsher areas whilst comparing them to how we live.

As members of our community we will:

be looking at living in the wider world and how people can inspire us.

As athletes we will:

be lucky enough to have a sports coach to teach us the fundamental skills of dance and gymnastics. Furthermore, we go swimming to Halifax baths every Tuesday to learn / develop our swimming skills.

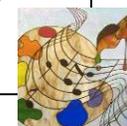

As scientists we will:

learn all about electrical circuits and test the ability of materials to conduct electricity. Put our knowledge of circuits on display by building our very own circuit to create a buzz-wire game. Then use this game to try to defeat a challenger.

As musicians we will:

be learning about different composers in history and their music. We will also be exploring rhythm, pattern and musical arrangements.

As artists and designers we will:

be continuing to work on our skills and create aboriginal artwork. We will also look at sculpture and painting.
