

Summer 2 Learning in Year 4

As readers and authors we will be

be reading a variety of texts including the BFG and others linked to our topic. We will be looking at poetry, persuasion texts and also a non-fiction information book.

We will continue to work on our text structure and organisation including writing paragraphs around a theme. We will be showing understanding of features of different genres and answering question looking at who, where, when and why. Our grammar focus will be the use of conjunctions to express time.

As members of our community we will:

be looking at living in the wider world and how people can inspire us.

As linguists we will:

be continuing to build on new vocabulary we learn and how to use new phrases in different situations.

As historians and geographers we will:

look at the history of London, the landmarks and their location on a map. We will use our map reading skills to plan routes around the underground to famous destinations. We will continue to develop our geographical and historical thinking skills to answer questions related to our topic.

As mathematicians we will:

We will use the fluency we have developed in all areas of the curriculum to answer problem solving and reasoning questions to further enhance our use of maths in everyday situations.

Our work on fractions will cover adding and subtracting, identifying equivalent fractions and converting fractions into decimals. We will then work on decimals and using them in calculations.

As athletes we will:

be lucky enough to have a sports coach to teach us the fundamental skills of athletics and ball skills. Furthermore, we go swimming to Halifax baths every Tuesday to learn / develop our swimming skills.

As scientists we will:

revisit topics covered this year and plan and carry out focussed investigations and experiments. We will also be looking at food chains and how animals survive in their habitats.

As musicians we will:

be exploring rhythm, pattern and musical arrangements. Preparations for the end of year performance will take place during music lessons.

As artists and designers we will:

be using all the skills we have learnt to plan, design and make products that we would be able to sell on a market stall. We will evaluate the work we have done and show how we can improve.
