

Summer 2

Learning in Year 6

As mathematicians we will:

be focusing on developing our investigative and explorative skills whilst drawing on our mathematical knowledge to solve challenges and problems across all aspects of the numeracy curriculum.

As readers and authors we will:

Be looking at the Shaun Tan book 'The Arrival'. We will use it to write poetry and create our own narrative around the book maintaining an appropriate style, consciously controlling the structure of sentences and engaging the reader throughout.

As scientists we will:

be investigating light with links to:

- How we see things
- Reflection
 - Angle of incidence
 - Angle of reflection
- Light spectrum
- Seeing colours
- Refraction

As athletes we will:

be developing our knowledge and skills of athletics including, javelin, long jump, sprinting and relays with baton changeovers.

As linguists we will:

give well-structured descriptions, explanations and narratives for different purposes, including for expressing feelings.

This is the final half term at Savile Park for our Year 6's. We are looking forward to our Presentation Evening to celebrate their time here. This will be held on Thursday 18th July and further details will follow.

In our computing curriculum we will:

be looking at why computers use the binary number system.

As musicians we will:

be looking at the Reflect, Rewind & Replay unit within our Charanga music scheme.

As historians we will:

be continuing to develop our historical and geographical knowledge through the study of the Mayans and the environment in which they formed their civilization. Focus areas will be developing historical enquiry into what the Mayans did for us including, astronomy, sculpture, architecture, medicine and the number system.

As artists we will:

Having drawn creative pictures of Mayan gods we will be making clay carvings of our artwork.
